### Freshpet, Inc. Announces Proposed Convertible Senior Notes Offering

SECAUCUS, N.J.—(GLOBE NEWSWIRE)—March 14, 2023—Freshpet, Inc. (Nasdaq: FRPT) (“Freshpet” or the “Company”) today announced its intention to offer, subject to market and other conditions, \$350,000,000 aggregate principal amount of convertible senior notes due 2028 (the “notes”) in a private offering to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the “Securities Act”). Freshpet also expects to grant the initial purchasers of the notes an option to purchase, for settlement within a period of 13 days from, and including, the date the notes are first issued, up to an additional \$52,500,000 principal amount of notes.

The notes will be senior, unsecured obligations of Freshpet, will accrue interest payable semi-annually in arrears and will mature on April 1, 2028, unless earlier repurchased, redeemed or converted. Noteholders will have the right to convert their notes in certain circumstances and during specified periods. Freshpet will settle conversions by paying or delivering, as applicable, cash, shares of its common stock or a combination of cash and shares of its common stock, at Freshpet’s election.

The notes will be redeemable, in whole or in part (subject to certain limitations), for cash at Freshpet’s option at any time, and from time to time, on or after April 3, 2026 and on or before the 40th scheduled trading day immediately before the maturity date, but only if the last reported sale price per share of Freshpet’s common stock exceeds 130% of the conversion price for a specified period of time. The redemption price will be equal to the principal amount of the notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the redemption date.

If certain corporate events that constitute a “fundamental change” occur, then, subject to a limited exception, noteholders may require Freshpet to repurchase their notes for cash. The repurchase price will be equal to the principal amount of the notes to be repurchased, plus accrued and unpaid interest, if any, to, but excluding, the applicable repurchase date.

The interest rate, initial conversion rate and other terms of the notes will be determined at the pricing of the offering.

Freshpet intends to use a portion of the net proceeds from the offering to fund the cost of entering into the capped call transactions described below. Freshpet intends to use the remainder of the net proceeds from the offering for general corporate purposes. If the initial purchasers exercise their option to purchase additional notes, then Freshpet intends to use a portion of the additional net proceeds to fund the cost of entering into additional capped call transactions as described below.

In connection with the pricing of the notes, Freshpet expects to enter into privately negotiated capped call transactions with one or more financial institutions (the “option counterparties”). The capped call transactions are expected to cover, subject to customary adjustments, the number of shares of Freshpet’s common stock that will initially underlie the notes. The capped call transactions are expected generally to reduce the potential dilution to Freshpet’s common stock upon any conversion of the notes and/or at Freshpet’s election (subject to certain conditions) offset any potential cash payments Freshpet

is required to make in excess of the principal amount of converted notes, as the case may be, upon conversion of the notes, with such reduction or offset subject to a cap.

In connection with establishing their initial hedges of the capped call transactions, the option counterparties or their respective affiliates expect to enter into various derivative transactions with respect to Freshpet's common stock and/or purchase shares of Freshpet's common stock concurrently with or shortly after the pricing of the notes. This activity could increase (or reduce the size of any decrease in) the market price of Freshpet's common stock or the notes at that time. In addition, the option counterparties or their respective affiliates may modify their hedge positions by entering into or unwinding various derivatives with respect to Freshpet's common stock and/or purchasing or selling Freshpet's common stock or other securities in secondary market transactions following the pricing of the notes and prior to the maturity of the notes (and are likely to do so on each exercise date of the capped call transactions, which are expected to occur during the 40 trading day period beginning on the 41st scheduled trading day prior to the maturity date of the notes, or following Freshpet's election to terminate any portion of the capped call transactions in connection with any repurchase, redemption or early conversion of the notes). This activity could also cause or avoid an increase or decrease in the market price of Freshpet's common stock or the notes, which could affect the ability to convert the notes, and, to the extent the activity occurs during any observation period related to a conversion of notes, it could affect the number of shares and value of the consideration that noteholders will receive upon conversion of the notes.

The offer and sale of the notes and any shares of common stock issuable upon conversion of the notes have not been, and will not be, registered under the Securities Act or any other securities laws, and the notes and any such shares cannot be offered or sold except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and any other applicable securities laws. This press release does not constitute an offer to sell, or the solicitation of an offer to buy, the notes or any shares of common stock issuable upon conversion of the notes, nor will there be any sale of the notes or any such shares, in any state or other jurisdiction in which such offer, sale or solicitation would be unlawful.
