SUMMARY

The following summary highlights information contained elsewhere or incorporated by reference into this prospectus supplement. It may not contain all the information that may be important to you. You should read carefully this entire prospectus supplement, the accompanying prospectus and the documents incorporated by reference, including the section titled “Risk Factors” in this prospectus supplement and our Annual Report and our historical consolidated financial statements and related notes incorporated herein by reference.

Unless the context requires otherwise, “we,” “us,” “our,” “Freshpet” and the “Company” refer to Freshpet, Inc. and its consolidated subsidiaries.

Our Company

At Freshpet, we are disrupting the over \$38.0 billion North American pet food industry by driving consumers to reassess conventional dog and cat food offerings that have remained essentially unchanged for decades. We position our brand to benefit from mainstream trends of growing pet humanization and consumer focus on health and wellness. We price our products to be accessible to the average consumer, providing us with broad demographic appeal and allowing us to penetrate multiple classes of retail, including grocery (including online), mass, club, pet specialty and natural. We have successfully expanded our network of Freshpet Fridges within leading blue-chip retail chains. The strength of our business model extends to our customers, who we believe find that Freshpet grows their pet category sales, drives higher traffic, increases shopper frequency and delivers category leading margins. As of December 31, 2020, our household penetration within North America was approximately 4 million, with a target of 11 million households by 2025, an increase from our prior target of 8 million. Additionally, we believe that there are opportunities to expand our network into international markets as demonstrated with our recent initiatives in the U.K. market.

Our Industry

We primarily compete in the North American dog and cat food market, which we estimate will grow at an average compounded annual growth rate of 5.7% from 2020 to 2025. We believe pet food spending in North America will continue to increase at a similar rate over this same time period. The pet food market has historically been resilient as consumers continue to spend on their pets even during economic downturns.

We believe the following trends are driving growth in our industry:

Pet ownership. There are currently approximately 85 million pet owning households in the United States, which represents approximately 67% of total households, and over 170 million dogs and cats in the United States, according to the American Pet Products Association.

Pet humanization. According to Packaged Facts, 95% of U.S. pet owners view their pets as members of the family. As pets are increasingly viewed as companions, friends and family members, pet owners are being transformed into “pet parents” who spare no expense for their loved ones, driving premiumization across pet categories. This trend is reflected in food purchasing decisions. According to an American Pet Products Association’s Pulse Study published in December 2020, 64% of pet parents feel they are closer/more bonded with their pet due to the COVID-19 pandemic. We believe that pet owners’ closer bond to their pets aligns with recent trends, which the COVID-19 pandemic has further accelerated.

Increasing consumer focus on health & wellness. Consumers are increasingly purchasing fresh, natural and organic food products. We believe consumers are seeking simple, fresh and easy to understand food products from brands they trust and made with ingredients that are transparently sourced.

The pet food purchasing decision is underpinned by higher brand loyalty than many other consumer packaged goods categories. A consumer selecting a pet food brand resists frequent switching in order to avoid disrupting the pet’s diet, resulting in high repeat purchasing behavior. As a result, we believe that as consumers try fresh, refrigerated pet food, they are likely to become repeat users of the product.

Our Opportunity

Even though long-term consumer trends of pet humanization and health and wellness are well documented, conventional pet food sold as dry kibble or wet food in cans has not changed substantially for decades. We believe that the pet food industry has not kept pace with how consumers think about food for their families,

including their pets. As a result, consumers are searching for higher quality, less processed food for their dogs' and cats' meals that measure up to today's sensibilities of what actually constitutes "good food." Freshpet was specifically designed to address this growing need with affordable offerings accessible to the average consumer.

(1) Represents current assets minus current liabilities.			
(2) EBITDA, Adjusted EBITDA, Adjusted EBITDA as a percentage of net sales, Adjusted Gross Profit, Adjusted Gross Profit as a percentage of net sales, Adjusted SG&A Expenses and Adjusted SG&A expenses as a percentage of net sales are not financial measures prepared in accordance with generally accepted accounting principles in the United States ("GAAP"). EBITDA represents net income (loss) plus interest expense, income tax expense, and depreciation and amortization. Adjusted EBITDA represents EBITDA plus loss on disposal of equipment, non-cash share-based compensation, launch expenses, plant start-up expenses, fees related to equity offerings of our common stock, litigation expense, COVID-19 expenses and implementation and other costs associated with the implementation of an ERP system. Adjusted Gross Profit represents Gross Profit before non-cash depreciation expense, plant start-up expense, COVID-19 expenses and non-cash share-based compensation. Adjusted SG&A represents SG&A expenses before depreciation and amortization expense, non-cash share-based compensation, launch expense, loss on disposal of equipment, fees related to equity offerings of our common stock, implementation and other costs associated with the implementation of an ERP system, litigation expense and COVID-19 expenses. We have changed our method for calculating Adjusted EBITDA, Adjusted Gross Profit and Adjusted SG&A in light of certain non-recurring expenses related to the COVID-19 pandemic and in light of the implementation of a new ERP system. We present these non-GAAP financial measures because we believe each of these measures provides an additional metric to evaluate our operations and, when considered with both our GAAP results and the reconciliation to the closest comparable GAAP measure set forth below, provides a more complete understanding of our business than could be obtained absent this disclosure. We use these measures, together with financial measures prepared in accordance with GAAP, such as net sales, gross profit margins, and cash flow from operations, to assess our historical and prospective operating performance, to provide meaningful comparisons of operating performance across periods, to enhance our understanding of our operating performance and to compare our performance to that of our peers and competitors. Adjusted EBITDA is also an important component of internal budgeting and setting management compensation.			
These non-GAAP financial measures should not be considered in isolation or as alternatives to net income (loss), income (loss) from operations or any other measure of financial performance calculated and prescribed in accordance with GAAP. Neither EBITDA nor Adjusted EBITDA should be considered a measure of discretionary cash available to us to invest in the growth of our business.			
Our presentation of these non-GAAP financial measures should not be construed as an inference that our future results will be unaffected by the expenses that are excluded from these terms or by unusual or non-recurring items. These non-GAAP financial measures have limitations as analytical financial measures. For example, these non-GAAP financial measures do not reflect:			
<ul style="list-style-type: none"> • our capital expenditures or future requirements for capital expenditures; • the interest expense or the cash requirements necessary to service interest expense or principal payments, associated with indebtedness; • depreciation and amortization, which are non-cash charges, although the assets being depreciated and amortized will likely have to be replaced in the future, nor any cash requirements for such replacements; and • changes in cash requirements for our working capital needs. 			
Additionally, Adjusted EBITDA excludes (i) non-cash share-based compensation expense, which is and will remain a key element of our overall long-term incentive compensation package, and (ii) certain costs essential to our sales growth and strategy, including an allowance for marketing expenses for each new store added to our network and noncapitalizable freight costs associated with Freshpet Fridge replacements. Adjusted EBITDA also excludes certain cash charges resulting from matters we consider not to be indicative of our ongoing operations. Our non-GAAP financial measures may not be comparable to similarly titled measures in other organizations because other organizations may not calculate non-GAAP financial measures in the same manner as we do.

RISK FACTORS

Investing in our common stock involves a high degree of risk. The following is a discussion of the risks, uncertainties and assumptions that we believe are material to our business, which should be considered in conjunction with the other information contained, or incorporated by reference, in this prospectus supplement, including our consolidated financial statements and accompanying notes. If any of those or the following risks actually occurs, our business, financial condition, results of operations or cash flows could be materially adversely affected. In any such case, the trading price of our common stock could decline, and you could lose all or part of your investment.

Risks Related to the Offering and Our Common Stock

Management will have broad discretion as to the use of the proceeds from this offering, and we may not use the proceeds effectively.

Our management will have broad discretion in the application of the net proceeds from this offering and could spend the proceeds in ways that do not improve our results of operations or enhance the value of our common stock. Our failure to apply these funds effectively could have a material adverse effect on our business and cause the price of our common stock to decline.

The price of our common stock has been and may continue to be volatile and you may lose all or part of your investment.

The market price of our common stock could fluctuate significantly, as it has in the past, and you may not be able to resell your shares at or above the purchase price. Those fluctuations could be based on various factors in addition to those otherwise described in this prospectus supplement or the documents incorporated herein, including the following:

- the impact of COVID-19 on the U.S. and global economies, our employees, suppliers, customers and end consumers, which could adversely and materially impact our business, financial condition and results of operations;
- our operating performance and the performance of our competitors or pet food companies in general;
- the public's reaction to our press releases, our other public announcements and our filings with the SEC;
- changes in earnings estimates or recommendations by research analysts who follow us or other companies in our industry;
- global, national or local economic, legal and regulatory factors unrelated to our performance;
- the number of our shares publicly traded and the activities of short sellers;
- future sales of our common stock, including by our officers, directors and significant stockholders;
- the arrival or departure of key personnel; and
- other developments affecting us, our industry or our competitors, such as new market entrants.

In addition, in recent years the stock market has experienced significant price and volume fluctuations. These fluctuations may be unrelated to the operating performance of particular companies. These broad market fluctuations may cause declines in the market price of our common stock. The price of our common stock could fluctuate based upon factors that have little or nothing to do with our business, financial condition and results of operations, and those fluctuations could materially reduce our common stock price.

As we operate in a single industry, we are especially vulnerable to these factors to the extent that they affect our industry or our products. In the past, securities class action litigation has often been initiated against companies, including us, following periods of volatility in their stock price. This type of litigation could result in substantial costs and divert our management's attention and resources, and could also require us to make substantial payments to satisfy judgments or to settle litigation.

Our common stock price may decline due to the large number of shares eligible for future sale and for exchange into common stock.

We have filed with the SEC a shelf registration statement on Form S-3, registering shares of our common stock to be issued and sold by us or certain of our selling stockholders from time to time in the future. The market price of our common stock could decline as a result of future sales of a large number of shares of our common stock pursuant to the shelf registration statement or otherwise, or the perception that such sales or exchanges could occur, among other factors. These sales or exchanges, or the possibility that these sales or exchanges may occur, also might make it more difficult for us to sell equity securities in the future at a time and price that we deem appropriate.

Upon completion of the offering, we will have a total of 42,824,185 shares of our common stock outstanding (or 43,139,185 shares if the underwriters exercise their option to purchase additional shares in full). All of the shares of common stock that will be sold by us in the offering will be freely tradable without restriction or further registration under the Securities Act by persons other than our “affiliates.” Under the Securities Act, an “affiliate” of an issuer is a person that directly or indirectly controls, is controlled by or is under common control with that issuer.

Our certificate of incorporation authorizes us to issue additional shares of common stock. In accordance with the Delaware General Corporation Law and the provisions of our certificate of incorporation, we may also issue preferred stock that has voting, designations, powers, preferences, and relative, participating, optional or other rights that are different from, and may be senior to, those applicable to shares of common stock.

We and each of our Section 16 officers and directors have agreed with the underwriters not to offer, sell, pledge, contract to sell (including any short sale), grant any option to purchase or otherwise dispose of any shares of common stock or enter into any hedging transaction relating to shares of our common stock or enter into other transactions which are designed to result in a disposition of the shares of our common stock for a period of 60 days after the date of this prospectus supplement without the prior written consent of the underwriters. Such lock-up agreements are subject to certain important exceptions, including an exception for our directors and Section 16 officers to sell or donate up to an aggregate of 75,000 shares. Once the lock-up period ends, the Company and our Section 16 officers and directors may be eligible to sell shares into the market.

Your percentage ownership may be diluted by the future issuance of additional common stock in connection with our incentive plans, acquisitions or otherwise.

Our charter allows us to issue up to 200 million shares of common stock. Any shares of common stock that we issue, including under our 2014 Omnibus Incentive Plan or other equity incentive plans that we may adopt in the future or in connection with an acquisition or otherwise, would dilute the percentage ownership held by the investors who purchase shares of common stock in this offering.

Provisions in our charter documents and Delaware law may delay or prevent our acquisition by a third party, even if the acquisition would be beneficial to our stockholders, and could make it more difficult for you to change our management.

Our certificate of incorporation and bylaws and Delaware law contain several provisions that may make it more difficult for a third-party to acquire control of us without the approval of our Board of Directors. For example, we currently have a classified Board of Directors with three-year staggered terms, which could delay the ability of stockholders to change membership of a majority of our Board of Directors. These provisions may make it more difficult or expensive for a third-party to acquire a majority of our outstanding equity interests. These provisions also may delay, prevent or deter a merger, acquisition, tender offer, proxy contest or other transaction that might otherwise result in our stockholders receiving a premium over the market price for their common stock.

USE OF PROCEEDS

We estimate that the net proceeds from this offering, after deducting the underwriting discount but excluding offering expenses, will be approximately \$289 million (or approximately \$332 million if the underwriters exercise their option to purchase additional shares of our common stock in full). We intend to use the net proceeds from this offering for general corporate purposes. General corporate purposes may include capital expenditures, including funding the continued development of our Freshpet Kitchens 2.0 at our Freshpet Kitchens Bethlehem, Freshpet Kitchens South and Freshpet Kitchens Ennis, additions to working capital, investments in our subsidiaries, and repayment of indebtedness, among other things. Net proceeds may be temporarily invested prior to use.

MATERIAL U.S. FEDERAL INCOME AND ESTATE TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

Overview

The following is a summary of material U.S. federal income and estate tax consequences to non-U.S. holders, as defined below, of the ownership and disposition of shares of our common stock as of the date of this prospectus. This summary deals only with shares of common stock purchased in this offering that are held as capital assets within the meaning of Section 1221 of the Code, as defined below, (generally, property held for investment) by a non-U.S. holder.

For purposes of this discussion, a “non-U.S. holder” means a beneficial owner of shares of our common stock that, for U.S. federal income tax purposes, is not any of the following:

- an individual who is a citizen or resident of the United States;
- a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;
- a partnership (or any other entity treated as a partnership for U.S. federal income tax purposes);
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust if it (1) is subject to the primary supervision of a court within the United States and one or more United States persons have the authority to control all substantial decisions of the trust or (2) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a United States person for U.S. federal income tax purposes.

If any entity or arrangement treated as a partnership for U.S. federal income tax purposes holds shares of our common stock, the tax treatment of a partner in such partnership generally will depend upon the status of the partner and the activities of the partner and the partnership. If you are a partner of a partnership considering an investment in shares of our common stock, you should consult your own tax advisors.

This summary is based upon provisions of the U.S. Internal Revenue Code of 1986, as amended (the “Code”), applicable U.S. Treasury regulations, rulings and other administrative pronouncements and judicial decisions, all as in effect as of the date hereof. Those authorities are subject to different interpretations and may be changed at any time, perhaps retroactively, so as to result in U.S. federal income and estate tax consequences different from those summarized below. We have not sought and do not expect to seek any rulings from the U.S. Internal Revenue Service (the “IRS”) regarding the matters discussed below. There can be no assurance that the IRS will not take positions concerning the tax consequences of the ownership or disposition of shares of our common stock that differ from those discussed below. We cannot assure you that a change in law will not alter significantly the tax consequences described in this summary.

This summary does not address all aspects of U.S. federal income and estate taxes and does not deal with the foreign, state, local, alternative minimum tax or other tax considerations that may be relevant to non-U.S. holders in light of their particular circumstances. In addition, this summary does not describe the U.S. federal income tax consequences applicable to you if you are subject to special treatment under U.S. federal income tax laws (including if you are a U.S. expatriate or U.S. expatriated entity, a financial institution, an insurance company, a tax-exempt organization, a government or government instrumentality, a trader, broker or dealer in securities or currencies, a “controlled foreign corporation,” a “passive foreign investment company,” an entity treated as a partnership or other pass-through entity for U.S. federal income tax purposes (or an investor in such a pass-through entity), a person who acquired shares of our common stock as compensation or otherwise in connection with the performance of services, or a person who has acquired shares of our common stock as part of a straddle, hedge, conversion transaction or other integrated investment).

This summary is for general information only and is not intended to constitute a complete description of all U.S. federal income and estate tax consequences for non-U.S. holders relating to the ownership and disposition of our common stock. If you are considering the purchase of shares of our common stock, you should consult your own tax advisors concerning the particular U.S. federal income and estate tax consequences to you of the ownership and disposition of shares of our common stock, as well as the consequences to you arising under other U.S. federal tax laws and the laws of any other applicable taxing jurisdiction in light of your particular circumstances.

Dividends

We do not currently expect to pay dividends on our common stock in the foreseeable future. In general, in the event that we do pay dividends on shares of our common stock, such cash distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent any such distributions exceed both our current and our accumulated earnings and profits, they will first be treated as a return of capital reducing your adjusted tax basis in our common stock, but not below zero, and then will be treated as gain from the sale of stock.

Subject to the discussion below of backup withholding and FATCA, dividends paid to a non-U.S. holder generally will be subject to a U.S. federal withholding tax at a 30% rate, or such lower rate as may be specified by an applicable income tax treaty. However, dividends that are effectively connected with the conduct of a trade or business within the United States by a non-U.S. holder (and, if required by an applicable income tax treaty, are attributable to a U.S. permanent establishment or a fixed base of the non-U.S. holder) generally will not be subject to such withholding tax, provided certain certification and disclosure requirements are satisfied (including the provision of a properly completed IRS Form W-8ECI or other applicable form). Instead, unless an applicable income tax treaty provides otherwise, such dividends will generally be subject to U.S. federal income tax on a net income basis in the same manner as if the non-U.S. holder were a United States person as defined under the Code. A corporate non-U.S. holder may be subject to an additional “branch profits tax” at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty) on its earnings and profits (subject to adjustments) that are effectively connected with its conduct of a U.S. trade or business.

A non-U.S. holder of shares of our common stock who wishes to claim the benefit of an applicable income tax treaty rate for dividends will be required (a) to complete IRS Form W-8BEN or W-8BEN-E (or other applicable form) and certify under penalties of perjury that such holder is not a United States person as defined under the Code and is eligible for treaty benefits of a reduction in the rate of, or exemption from, withholding on dividends, or (b) if shares of our common stock are held through certain foreign intermediaries, satisfy the relevant certification requirements of applicable U.S. Treasury regulations. This certification must be provided to the applicable withholding agent prior to the payment of dividends and may be required to be updated periodically if there is a change in circumstances that makes any information on such form incorrect.

It is possible that a distribution made to a non-U.S. holder may be subject to over-withholding because, for example, at the time of the distribution we or the relevant withholding agent may not be able to determine how much of the distribution constitutes dividends or the proper documentation establishing the benefits of any applicable treaty has not been properly supplied. If there are any excess amounts withheld on distributions made to a non-U.S. holder, such non-U.S. holder may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. holders should consult their tax advisors regarding the applicable withholding tax rules and the possibility of obtaining a refund of any excess amounts withheld.

Gain on Disposition of Shares of Common Stock

Subject to the discussions below on backup withholding and FATCA (as defined below), any gain realized by a non-U.S. holder on the sale or other taxable disposition of shares of our common stock generally will not be subject to U.S. federal income tax unless:

- the gain is effectively connected with a trade or business of the non-U.S. holder conducted in the United States (and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment or a fixed base of the non-U.S. holder);
- the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of that disposition, and certain other conditions are met; or
- we are or have been a U.S. real property holding corporation (a “USRPHC”) for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of the disposition or the period that the non-U.S. holder held shares of our common stock (the “applicable period”).

In the case of a non-U.S. holder described in the first bullet point above, any gain will be subject to U.S. federal income tax on a net income basis generally in the same manner as if the non-U.S. holder were a United States person as defined under the Code (unless an applicable income tax treaty provides otherwise), and a

TABLE OF CONTENTS

non-U.S. holder that is a foreign corporation may be subject to an additional “branch profits” tax at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty) on its effectively connected earnings and profits attributable to such gains (subject to adjustments). Except as otherwise provided by an applicable income tax treaty, an individual non-U.S. holder described in the second bullet point above will be subject to a 30% tax on any gain derived from the sale or other taxable disposition, which may be offset by certain U.S. source capital losses, even though the individual is not considered a resident of the United States under the Code.

With respect to the third bullet point above, we believe we are not currently and will not become a USRPHC. However, because the determination of whether we are a USRPHC depends on the fair market value of our U.S. real property interests relative to the fair market value of our other business assets, there can be no assurance that we are not currently or will not become a USRPHC in the future. Even if we are or become a USRPHC, however, so long as our common stock is regularly traded on an established securities market, a non-U.S. holder will be subject to U.S. federal income tax on any gain in respect of our common stock only if such non-U.S. holder actually or constructively owned more than five percent of our outstanding common stock at any time during the applicable period. You should consult your own tax advisor about the consequences that could result if we are, or become, a USRPHC.

Information Reporting and Backup Withholding

The amount of distributions paid to each non-U.S. holder and any tax withheld with respect to such distributions will be reported annually to the IRS and to each such holder, regardless of whether such distributions constitute dividends or whether withholding was reduced or eliminated by an applicable income tax treaty. Copies of the information returns reporting such distributions and withholding may also be made available to the tax authorities in the country in which the non-U.S. holder resides or is established under the provisions of an applicable income tax treaty or agreement.

A non-U.S. holder generally will be subject to backup withholding with respect to dividends paid to such holder unless such holder certifies under penalties of perjury that it is not a United States person as defined under the Code (and the payor does not have actual knowledge or reason to know that such holder is a United States person as defined under the Code), or such holder otherwise establishes an exemption, for example, by properly certifying its non-U.S. status on an IRS Form W-8BEN or W-8BEN-E or other appropriate IRS Form W-8.

Information reporting and, depending on the circumstances, backup withholding will apply to the proceeds of a sale or other disposition by a non-U.S. holder of shares of our common stock within the United States or conducted through certain U.S.-related financial intermediaries unless such non-U.S. holder certifies under penalties of perjury that it is not a United States person as defined under the Code (and the payor does not have actual knowledge or reason to know that the non-U.S. holder is a United States person as defined under the Code), or such non-U.S. holder otherwise establishes an exemption, for example, by properly certifying its non-U.S. status on an IRS Form W-8BEN or W-8BEN-E or other appropriate IRS Form W-8.

Backup withholding is not an additional tax. Any amounts withheld from a payment to a non-U.S. holder of common stock under the backup withholding rules may be allowed as a refund or a credit against a non-U.S. holder’s U.S. federal income tax liability provided the required information is timely furnished to the IRS.

Foreign Account Tax Compliance Act (FATCA)

Legislation enacted in 2010 (commonly known as “FATCA”), generally will impose a withholding tax of 30% on dividend income from our common stock paid to (i) a “foreign financial institution” (as such term is defined in Section 1471(d)(4) of the Code) (as the beneficial owner or as an intermediary for the beneficial owner), unless such institution enters into an agreement with the U.S. government to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of such institution (which would include certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners) or (ii) a foreign entity that is not a financial institution (as the beneficial owner or as an intermediary for the beneficial owner), unless such entity provides the withholding agent with a certification identifying the substantial United States owners of the entity, which generally includes any United States person as defined under the Code who directly or indirectly owns more than 10% of the entity. These rules do not apply if the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these

TABLE OF CONTENTS

rules, including pursuant to or in compliance with an intergovernmental agreement entered into between the United States and the beneficial owner's home jurisdiction. The FATCA provisions would have initially imposed a 30% withholding tax on the gross proceeds from a sale or other disposition of our common stock after December 31, 2018. However, proposed Treasury regulations have been issued that, when finalized, will provide for the repeal of this 30% withholding tax. In the preamble to the proposed regulations, the government provided that taxpayers may rely upon this repeal until the issuance of final regulations. In many cases, non-U.S. holders may be able to indicate their exemption from, or compliance with, FATCA by providing a properly completed revised Form W-8BEN or W-8BEN-E, as applicable, to the applicable withholding agent certifying as to such status under FATCA; however, it is possible that additional information and diligence requirements will apply in order for a holder to establish an exemption from withholding under FATCA to the applicable withholding agent. You should consult with your own tax advisors regarding the implications of FATCA on your investment in our common shares. Under certain circumstances, a non-U.S. holder of our common stock might be eligible for refunds or credits of such taxes, and a non-U.S. holder might be required to file a U.S. federal income tax return to claim such refunds or credits. Non-U.S. holders should consult their tax advisors regarding the implications of this legislation on their investment in our common stock.

Tax Shelter Disclosure and Investor List Requirements

Treasury Regulations directed at abusive tax shelter activity appear to apply to transactions not conventionally regarded as tax shelters. Such Treasury Regulations require taxpayers to report certain information on IRS Form 8886 if they participate in a "reportable transaction" and to retain certain information related to such transactions. Organizers and promoters of the transaction are required to maintain records including investor lists containing identifying information and to furnish those records to the IRS upon demand.

A transaction may be a "reportable transaction" based upon any of several indicia, one or more of which may be present with respect to your investment. The Code imposes significant penalties for failure to comply with these disclosure requirements. You should be aware that the transferor and other participants in the transaction intend to comply with such disclosure and investor list requirements. You should consult their own tax advisors concerning any possible disclosure obligation with respect to your investment.

U.S. Federal Estate Tax

Shares of our common stock that are owned (or deemed to be owned) by an individual who is not a citizen or resident of the United States (as specially defined for U.S. federal estate tax purposes) at the time of death will be includable in such individual's gross estate for U.S. federal estate tax purposes, unless an applicable estate or other tax treaty provides otherwise, and, therefore, may be subject to U.S. federal estate tax.

THE SUMMARY ABOVE OF MATERIAL U.S. FEDERAL INCOME AND ESTATE TAX CONSEQUENCES TO NON-U.S. HOLDERS IS FOR GENERAL INFORMATION ONLY AND DOES NOT CONSTITUTE TAX ADVICE. POTENTIAL PURCHASERS OF OUR COMMON STOCK ARE URGED TO CONSULT THEIR TAX ADVISORS TO DETERMINE THE U.S. FEDERAL, STATE, LOCAL AND NON-U.S. INCOME, ESTATE AND OTHER TAX AND TAX TREATY CONSIDERATIONS OF OWNING AND DISPOSING OF OUR COMMON STOCK.

UNDERWRITING

BofA Securities, Inc. is acting as representative of each of the underwriters named below. Subject to the terms and conditions set forth in an underwriting agreement among us and the underwriters, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the number of shares of common stock set forth opposite its name below.

Underwriter	Number of Shares
BofA Securities, Inc.	871,820
Robert W. Baird & Co. Incorporated	435,911
Truist Securities, Inc.	435,911
D.A. Davidson & Co.	118,786
Stifel, Nicolaus & Company, Incorporated	118,786
William Blair & Company, L.L.C.	118,786
Total	<u>2,100,000</u>

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the shares sold under the underwriting agreement if any of these shares are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the shares, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer’s certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The representative has advised us that the underwriters propose initially to offer the shares to the public at the public offering price set forth on the cover page of this prospectus and to dealers at that price less a concession not in excess of \$3.003 per share. After the initial offering, the public offering price, concession or any other term of the offering may be changed.

The following table shows the public offering price, underwriting discount and proceeds before expenses to us. The information assumes either no exercise or full exercise by the underwriters of their option to purchase additional shares.

	Per Share	Without Option	With Option
Public offering price	\$ 143.00	\$300,300,000.00	\$345,345,000.00
Underwriting discount	\$ 5.3625	\$ 11,261,250.00	\$ 12,950,437.50
Proceeds, before expenses, to us	\$137.6375	\$289,038,750.00	\$332,394,562.50

We estimate that our expenses related to this offering, excluding underwriting discounts, will be approximately \$500,000.

Option to Purchase Additional Shares

We have granted an option to the underwriters, exercisable for 30 days after the date of this prospectus, to purchase up to 315,000 additional shares at the public offering price, less the underwriting discount. If the underwriters exercise this option, each will be obligated, subject to conditions contained in the underwriting agreement, to purchase a number of additional shares proportionate to that underwriter’s initial amount reflected in the above table.

No Sales of Similar Securities

We, our Section 16 officers and directors have agreed not to offer, sell, pledge, contract to sell (including any short sale), grant any option to purchase or otherwise dispose of any shares of our common stock, or enter into any hedging transaction relating to shares of our common stock or other transactions which are designed to result in a disposition of shares of our common stock for a period of 60 days after the date of this prospectus supplement without the prior written consent of BofA Securities, Inc. Such lock-up agreements are subject to certain important exceptions, including an exception for our directors and Section 16 officers to sell or donate up to an aggregate of 75,000 shares.

Price Stabilization, Short Positions

Until the distribution of the shares is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our common stock. However, the underwriters may engage in transactions that stabilize the price of the common stock, such as bids or purchases to peg, fix or maintain that price.

In connection with the offering, the underwriters may purchase and sell our common stock in the open market. These transactions may include short sales, purchases on the open market to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares described above. The underwriters may close out any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the option granted to them. "Naked" short sales are sales in excess of such option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of shares of common stock made by the underwriters in the open market prior to the completion of the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. The underwriters may conduct these transactions on NASDAQ, in the over-the-counter market or otherwise.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. In addition, neither we nor any of the underwriters make any representation that the representative will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Passive Market Making

In connection with this offering, underwriters and selling group members may engage in passive market making transactions in the common stock on NASDAQ in accordance with Rule 103 of Regulation M under the Exchange Act during a period before the commencement of offers or sales of common stock and extending through the completion of distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid, that bid must then be lowered when specified purchase limits are exceeded. Passive market making may cause the price of our common stock to be higher than the price that otherwise would exist in the open market in the absence of those transactions. The underwriters and dealers are not required to engage in passive market making and may end passive market making activities at any time.

Electronic Distribution

In connection with the offering, certain of the underwriters or securities dealers may distribute prospectuses by electronic means, such as e-mail.

Other Relationships

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions. Bank of America, N.A., an affiliate of BofA Securities, Inc., an underwriter in this offering, is a lender under our existing credit facilities.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. About Freshpet

We started Freshpet with a single-minded mission—to bring the power of real, fresh food to our dogs and cats. We were inspired by the rapidly growing view among pet owners that their dogs and cats are a part of their family, leading them to demand healthier pet food choices. Since our inception in 2006, we have created a comprehensive business model to deliver wholesome pet food that pet parents can trust, and in the process we believe we have become one of the fastest growing pet food companies in North America. Our business model is difficult for others to replicate and we see significant opportunity for future growth by leveraging the unique elements of our business, including our brand, our product know-how, our Freshpet Kitchens, our refrigerated distribution, our Freshpet Fridge and our culture.

Common Stock

We may issue and sell, and our stockholders may sell, our common stock. Holders of our common stock are entitled to receive such dividends as may be declared by our Board of Directors from time to time out of our assets or funds legally available for dividends. These rights are subject to the preferential rights of the holders of our preferred stock, if any, and any contractual limitations on our ability to declare and pay dividends. Each holder of our common stock is entitled to one vote per share on each matter submitted to a vote of stockholders. The holders of common stock have no preemptive rights or cumulative voting rights.

USE OF PROCEEDS

Unless we otherwise specify in the applicable prospectus supplement, the net proceeds we receive from the sale of common stock offered by us pursuant to this prospectus and the applicable prospectus supplement will be used for general corporate purposes. General corporate purposes may include repayment of indebtedness, acquisitions, additions to working capital, repurchases of common stock, dividends, capital expenditures and investments in our subsidiaries. Net proceeds may be temporarily invested prior to use.

We will not receive any proceeds from the sale of shares of our common stock by selling stockholders.

DESCRIPTION OF CAPITAL STOCK

The following summary of certain provisions of our capital stock does not purport to be complete and is subject to our Certificate of Incorporation, our Bylaws and the provisions of applicable law. Copies of our Certificate of Incorporation and Bylaws are filed as exhibits to the registration statement, of which this prospectus is a part.

Authorized Capitalization

General

The total amount of our authorized capital stock consists of 200,000,000 shares of common stock, par value \$0.001 per share, and 100,000,000 shares of undesignated preferred stock, par value \$0.001 per share.

Common Stock

Our common stock is not entitled to preemptive or other similar subscription rights to purchase any of our securities. Our common stock is neither convertible nor redeemable. Unless our Board of Directors determines otherwise, we will issue all of our capital stock in uncertificated form.

Preferred Stock

Our Board of Directors has the authority to issue shares of preferred stock from time to time on terms it may determine, to divide shares of preferred stock into one or more series and to fix the designations, preferences, privileges, and restrictions of preferred stock, including dividend rights, conversion rights, voting rights, terms of redemption, liquidation preference, sinking fund terms, and the number of shares constituting any series or the designation of any series to the fullest extent permitted by the Delaware General

Corporation Law (the “DGCL”). The issuance of our preferred stock could have the effect of decreasing the trading price of our common stock, restricting dividends on our capital stock, diluting the voting power of our common stock, impairing the liquidation rights of our capital stock, or delaying or preventing a change in control of our Company.

Voting Rights

Each holder of our common stock is entitled to one vote per share on each matter submitted to a vote of stockholders. Our Bylaws provide that the presence, in person or by proxy, of holders of shares representing a majority of the outstanding shares of capital stock entitled to vote at a stockholders’ meeting shall constitute a quorum. When a quorum is present, the affirmative vote of a majority of the votes cast is required to take action, unless otherwise specified by law or our Certificate of Incorporation, and except for the election of directors, which is determined by a plurality vote. There are no cumulative voting rights.

Dividend Rights

Each holder of shares of our capital stock is entitled to receive such dividends and other distributions in cash, stock or property as may be declared by our Board of Directors from time to time out of our assets or funds legally available for dividends or other distributions. These rights are subject to the preferential rights of the holders of our preferred stock, if any, and any contractual limitations on our ability to declare and pay dividends.

Other Rights

Each holder of common stock is subject to, and may be adversely affected by, the rights of the holders of any series of preferred stock that we may designate and issue in the future.

Liquidation Rights

If our company is involved in a consolidation, merger, recapitalization, reorganization, voluntary or involuntary liquidation, dissolution or winding up of our affairs, or similar event, each holder of common stock will participate pro rata in all assets remaining after payment of liabilities, subject to prior distribution rights of preferred stock, if any, then outstanding.

Anti-Takeover Effects of our Certificate of Incorporation and Bylaws

Our Certificate of Incorporation and our Bylaws contain provisions that may delay, defer or discourage another party from acquiring control of us. We expect that these provisions, which are summarized below, will discourage coercive takeover practices or inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with the Board of Directors, which we believe may result in an improvement of the terms of any such acquisition in favor of our stockholders. However, they also give the Board of Directors the power to discourage acquisitions that some stockholders may favor.

Action by Written Consent, Special Meeting of Stockholders and Advance Notice Requirements for Stockholder Proposals

Our Certificate of Incorporation provides that stockholder action can be taken only at an annual or special meeting of stockholders and cannot be taken by written consent in lieu of a meeting. Our Certificate of Incorporation and Bylaws also provide that, except as otherwise required by law, special meetings of the stockholders can be called only pursuant to a resolution adopted by a majority of the total number of directors that we would have if there were no vacancies. Except as described above, stockholders are not permitted to call a special meeting or to require the Board of Directors to call a special meeting.

In addition, our Bylaws require advance notice procedures for stockholder proposals to be brought before an annual meeting of the stockholders, including the nomination of directors. Stockholders at an annual meeting may only consider the proposals specified in the notice of meeting or brought before the meeting by or at the direction of the Board of Directors, or by a stockholder of record on the record date for the meeting, who is entitled to vote at the meeting and who has delivered a timely written notice in proper form to our secretary, of the stockholder's intention to bring such business before the meeting.

These provisions could have the effect of delaying until the next stockholder meeting any stockholder actions, even if they are favored by the holders of a majority of our outstanding voting securities.

Classified Board

Our Certificate of Incorporation provides that our Board of Directors is divided into three classes of directors, with the classes as nearly equal in number as possible. As a result, approximately one-third of our Board of Directors is elected each year. The classification of directors has the effect of making it more difficult for stockholders to change the composition of our board.

Removal of Directors

Our Certificate of Incorporation provides that directors may only be removed from office for cause and only upon the affirmative vote of at least 75% of the voting power of our outstanding shares of common stock.

Amendment to Certificate of Incorporation and Bylaws

The DGCL provides generally that the affirmative vote of a majority of the outstanding stock entitled to vote on amendments to a corporation's certificate of incorporation or bylaws is required to approve such amendment,

unless a corporation's certificate of incorporation or bylaws, as the case may be, requires a greater percentage. Our Bylaws may be amended, altered, changed or repealed by a majority vote of our Board of Directors, provided that, in addition to any other vote otherwise required by law, the affirmative vote of at least 75% of the voting power of our outstanding shares of common stock is required to amend, alter, change or repeal our Bylaws. Additionally, the affirmative vote of at least 75% of the voting power of the outstanding shares of capital stock entitled to vote on the adoption, alteration, amendment or repeal of our Certificate of Incorporation, voting as a single class, is required to amend or repeal or to adopt any provision inconsistent with specified provisions of our Certificate of Incorporation. This requirement of a supermajority vote to approve amendments to our Certificate of Incorporation and Bylaws could enable a minority of our stockholders to exercise veto power over any such amendments.

Delaware Anti-Takeover Statute

Section 203 of the DGCL provides that if a person acquires 15% or more of the voting stock of a Delaware corporation, such person becomes an “interested stockholder” and may not engage in certain “business combinations” with the corporation for a period of three years from the time such person acquired 15% or more of the corporation’s voting stock, unless: (1) the Board of Directors approves the acquisition of stock or the merger transaction before the time that the person becomes an interested stockholder, (2) the interested stockholder owns at least 85% of the outstanding voting stock of the corporation at the time the merger transaction commences (excluding voting stock owned by directors who are also officers and certain employee stock plans), or (3) the merger transaction is approved by the Board of Directors and by the affirmative vote at a meeting, not by written consent, of stockholders of 2/3 of the holders of the outstanding voting stock that is not owned by the interested stockholder. A Delaware corporation may elect in its certificate of incorporation or bylaws not to be governed by this particular Delaware law.

Under our Certificate of Incorporation, we opted out of Section 203 of the DGCL and therefore are not subject to Section 203.

Limitations on Liability and Indemnification of Officers and Directors

Our Certificate of Incorporation limits the liability of our directors to the fullest extent permitted by the DGCL, and our Bylaws provide that we will indemnify them to the fullest extent permitted by such law. We have entered and expect to continue to enter into agreements to indemnify our directors, executive officers and other employees as determined by our Board of Directors. Under the terms of such indemnification agreements, we are required to indemnify each of our directors and officers, to the fullest extent permitted by the laws of the State of Delaware, if the basis of the indemnitee’s involvement was by reason of the fact that the indemnitee is or was a director or officer of the Company or any of its subsidiaries or was serving at the Company’s request in an official capacity for another entity. We must indemnify our officers and directors against all reasonable fees, expenses, charges and other costs of any type or nature whatsoever, including any and all expenses and obligations paid or incurred in connection with investigating, defending, being a witness in, participating in (including on appeal), or preparing to defend, be a witness or participate in any completed, actual, pending or threatened action, suit, claim or proceeding, whether civil, criminal, administrative or investigative, or establishing or enforcing a right to indemnification under the indemnification agreement. The indemnification agreements also require us, if so requested, to advance within 30 days of such request all reasonable fees, expenses, charges and other costs that such director or officer incurred, provided that such person will return any such advance if it is ultimately determined that such person is not entitled to indemnification by us. Any claims for indemnification by our directors and officers may reduce our available funds to satisfy successful third-party claims against us and may reduce the amount of money available to us.

Exclusive Jurisdiction of Certain Actions

Our Certificate of Incorporation requires, to the fullest extent permitted by law, that derivative actions brought in the name of the Company, actions against directors, officers and employees for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware and, if brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder’s counsel. Although we believe this provision benefits the Company by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, the provision may have the effect of discouraging lawsuits against our directors and officers.

- a combination of any such methods of sale.

In addition, we may issue the securities as a dividend or distribution or in a subscription rights offering to our existing security holders.

The aggregate proceeds to us or the selling stockholders, as applicable, from the sale of our common stock will be the purchase price of our common stock less discounts or commissions, if any. We will not receive any proceeds from the sale of common stock by our stockholders. We and any selling stockholders reserve the right to accept and, together with our or their agents, as applicable, to reject, in whole or in part, any proposed purchase of our common stock to be made directly or through agents.

Any underwriters, broker-dealers or agents that participate in the sale of our common stock or interests therein may be “underwriters” within the meaning of Section 2(a)(11) of the Securities Act. Any discounts, commissions, concessions or profit they earn on any resale of the common stock may be underwriting discounts and commissions under the Securities Act. To the extent required, the common stock to be sold, the respective purchase prices and public offering prices, the names of any agents, dealers or underwriters, and any applicable discounts, commissions, concessions or other compensation with respect to a particular offer will be set forth in an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement that includes this prospectus.

our common stock. This may include over-allotments or short sales, which involve the sale by persons participating in the offering of more shares than were sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their over-allotment option, if any. In addition, these persons may stabilize or maintain the price of our common stock by bidding for or purchasing shares in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if shares sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of our common stock at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

Selling stockholders may use this prospectus in connection with resales of our common stock. Such selling stockholders may be deemed to be underwriters under the Securities Act in connection with the shares of our common stock they resell and any profits on the sales may be deemed to be underwriting discounts and commissions under the Securities Act.
